

3D printing and scanning trends 2022

Ph.D. forum

4th November 2022 – Friday

12:40 – 12:50	Ph.D. forum - program and rules
12:50 – 13:10	Mr. F. Vele – Technical University of Liberec (CZ) Topic: Case Study of Additively Manufactured Bike Stem
13:10 – 13:30	Mr. Y. Bakir – University of West Bohemia (CZ) Topic: In-situ Monitoring Systems and Its Use in the Area of the Development
13:30 – 13:50	Mr. I. Sukia - Mondragon Unibertsitatea (ES) Topic: Additive Manufacturing of Sandwich Pannels
13:50 - 14:10	Mr. U. Olaziregi – Mondragon Unibertsitatea (ES) Topic: Hybridisation of Forged Composites with 3D Printed Inserts
14:10 – 14:30	Mr. J. Machacek – Technical University of Liberec (CZ) Topic: 3D Scanning of the Mechanical Parts
14:30 - 15:30	Other Ph.D. students and conclusion

Partners

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 857061.
